SOFTWARE ENGINEER

EQUIPPED AI-ANALYTICAL INTELLIGENCE

16-June 2023-Current Noida,UP

LINK:<https://www.equipped.ai/minerva-software>

June 2023 – Current

- Minerva Software is a modular, innovative suite designed to revolutionize operations across industries.
- Utilizing React JS, Redux, and Redux Toolkit to develop and maintain interactive dashboards that provided real-time insights and data visualization, empowering informed decision-making.
- Managing workflow processes effectively using Redux, ensuring seamless coordination of tasks and efficient workflow management within the organization.
- Implementing automated reporting solutions using Azure and ASP.NET, which resulted in improved efficiency and streamlined reporting processes.
- Facilitating efficient fundraising and investor relations by implementing Redux and RESTful APIs, streamlining processes such as tracking meetings and generating investor reports.

REACT JS DEVELOPER

COD4 SOLUTIONS

1-April 2021 –14-June-2023

Noida,UP

LINK:<https://www.calmair.com/>

October 2022 – June-2023

- Developed and implemented web applications using React JS,NextJS,Redux,GraphQL and other front-end technologies.
- Collaborated with cross-functional teams including UX/UI designers, back-end developers, and project managers to deliver high-quality software products.
- Conducted code reviews and maintained code quality to ensure the scalability, performance, and maintainability of the applications.
- Worked with Git for version control and deployed applications using AWS.
- Followed Agile methodologies to deliver projects within deadlines.

LINK:<https://mploi.com/>

January 2022 – September

- It is a web application as well as Mobile App that helps job seekers to find job openings and employers post job listings.
- The app uses the React JS,NextJS framework to build a dynamic user interface that enables users to search and apply for jobs, create profiles, and manage their applications using GraphQL
- The app may include features such as a job search engine, job categories, job recommendations, resume builders, cover letter templates, job alerts, and job application tracking.
